

POLICY FOR POSTPONING GAMES FOR INCLEMENT WEATHER:

While the safety of those participating is the first concern only **extreme** inclement weather is a reason for postponing a game. Please see the following policy statement for the postponement of games.

In case bad of weather the site supervisor where the contest is to be played is responsible for making the decision concerning the weather conditions.

If the site supervisor determines that the weather is too inclement to hold the contests they must adhere to the following procedures:

The decision must be made at least one and one-half hours before the start of the first contest and it must be communicated to the CYO office and the officials assignor.

The site supervisor is responsible for having the home coaches contact their opponents to inform them of the decision.

Teams must show up ready to play unless notified by the site supervisor or designated representative of the home team.

All contest postponements will be on the CYO website www.cyosports.org .

Teams cannot unilaterally decide not to play – it must be a decision by the site supervisor and/or the CYO.

All games that are postponed in accordance to these guidelines can only be rescheduled by the CYO Office and only if sufficient time remains in the season and sufficient gym time is available. All efforts will be made to reschedule games but it is not guaranteed.

Games that are postponed outside of these guidelines will be double forfeits.

If the weather is such that the entire CYO schedule needs to be cancelled this will be posted on Channel 12 in addition to the CYO website.

Thank you
